

**REMARKS/ARGUMENTS**

Claims 1-13 are allowed in the present application. The present response amends claims 1, 2, 6, 7, and 13 to correct for certain informalities, leaving pending in the application claims 1-13. Issuance of the claims as amended is respectfully requested.

**I. Objection to the Drawings**

The drawings are objected to because (1) Figure 1 does not include a designation as prior art, and (2) Figure 3 lacks labeling of the various components. Figures 1 and 3 have been amended according to the request of the Examiner. The changes to the Figures are supported by the specification, and are not intended to alter the scope of the invention or be interpreted as a limitation on the claimed invention. Applicants respectfully request that the objection to the drawings be withdrawn.

**II. Objection to the Specification**

The specification has been amended to address the various objections set forth by the Examiner. In particular, correction of the trademark Evolocity<sup>TM</sup> and designation as a trade mark has been included. The Abstract has been amended to contain less than 150 words. Current status of pending applications has been updated. Corrections also have been made to the brief descriptions of the drawings. These amendments are supported by the specification, and are not intended to alter the scope of the invention or be interpreted as a limitation on the claimed invention. As Applicants have made the necessary corrections to the specification, Applicants respectfully request that the objections be withdrawn.

**III. Objection to the Claims**

Claims 1-10 and 13 are objected to under 37 C.F.R. 1.75(a) for failing to particularly point out and distinctly claim the subject matter which Applicants regard as the invention. In particular, the Examiner has identified a number of informalities in the pending claims. Applicants have addressed each such informality, amending the claims for clarity where deemed appropriate. As the claims have been amended for purposes of clarity and definiteness, Applicants respectfully request that the objection be withdrawn.

**IV. Amendment to the Claims**

Unless otherwise specified, amendments to the claims are made for purposes of clarity, and are not intended to alter the scope of the claims or limit any equivalents thereof. The amendments are supported by the specification and do not add new matter to the specification.

**V. Conclusion**

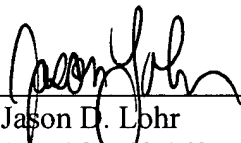

In view of the above, it is respectfully submitted that the application is now in condition for allowance. Reconsideration of the pending claims and a notice of allowance is respectfully requested.

The Commissioner is hereby authorized to charge any deficiency in the fees filed, asserted to be filed, or which should have been filed herewith (or with any paper hereafter filed in this application by this firm) to our Deposit Account No. 50-1703, under Order No. TWI-14120.

Respectfully submitted,
